Notes:

1. Emergency Services require Coordinates of Accident Site (+ RAPID No. if appropriate) and Road/ closest intersection for vehicle access.
2. RAPID = Rural Address Property Identification System. Calculated from the distance of the entrance to the main dwelling from the start of the road closest to the nearest emergency services depot eg 2.5km >250, and hence the name of the road is also important. System operated by each individual Council and inconsistently applied
3. Available GPS units – Club's Garmin Etrex GPS + spare batteries to now be stored in Event Center Caravan for future Accident Site ID  
Other units belonging to Club members: Trish Faulkner, Linley Earnshaw, Pat Bodger, Robert Hall, Kathryn Mueller.
4. Controllers **MUST** still fill out Emergency Procedures Form and determine cellphone coverage at Registration site or nearest landline before each event
5. Recommended that we contact Principal Rural Fire Officers in advance of major events eg Oceania. – where, when & number involved  
North Canterbury – Tim Sheppard, WDC 03 3136136  
CHCH – Warren Hunt, Bottle Lake 03 9417540  
Selwyn – Wilson Brown , SDC 03 3188338
