

## **Members map use policy**

- PAPO are happy to let members use maps for club and personal training purposes. These maps will be available by request from the Mapping Coordinator or OCAD Map Files Officer.
- Maps available for training are restricted to those that have public access, unless specific prior authorisation is obtained from the PAPO Committee.
- Usage: The maps may not be re-sold, passed onto any other third party, or used for commercial events, unless specific prior authorisation is obtained from the PAPO Committee.
- Safety: Peninsula and Plains Orienteers Inc. does not guarantee the accuracy of its maps and in particular does not accept any responsibility for the safety of any person using its maps. Many hazards may exist in the area mapped. It is the responsibility of the map user to ascertain the extent and severity of any hazard and to act accordingly. Peninsula and Plains Orienteers Inc. does not accept any liability that might arise from the use of its maps.
- Access: Possession of a map does not authorise the holder to enter onto any land without the prior permission of the landowner. Many Local Authorities and the Department of Conservation require that permission be sought before use of lands under their control. It shall be the responsibility of the user to obtain authorisation if required for the use of public land and this must not be done under the name of Peninsula and Plains Orienteers without consultation with the committee and the Land Permission Manager.
- Copyright: Maps are produced by Peninsula and Plains Orienteers Inc using (purchased) base photogrammetry or Lidar, detailed fieldwork, and subsequent cartography (using OCAD). Under the terms of the Copyright Act 1994, copyright of the resulting maps is owned by the Peninsula and Plains Orienteers Inc. Photocopying or unauthorized printing of these maps is an infringement of the Copyright Act.
